Praise for Brigette

When I first began working with Brigette, I was focused on building an app and wanted to get in front of investors ASAP. I shifted my focus to coaching which resonated with me on a much deeper level than my previous ambition. At first I felt like I was starting all over again, but Brigette helped me to embrace the pivot and enjoy the journey.

Brigette supported me by giving me the tools to understand myself and face my biggest challenges and fears. I have been empowered to remember that I AM a creator and I AM capable of making a change in this world by leading a business that comes from my heart.
